

4/7

Sun. mite

sure have gotten a bunch
of writing cleared up this
week. Just one more tonight
after this. To Mom & Bert.
First of all, about those
items Evelyn could pick up.
I would say that a variety
of soups and maybe stews
in cans would be the best.
The spaghetti & macaroni
things also go over very good.
It would keep away from the
frozen stuff on a deal
like this. If you want to
pick it up and deposit it at
Jimmie's in Willmar we'll
go down to Lake Lillian some
weekend to Jean's sister's place

and pick that stuff up.
What is Jim's address if
you do this? If those
veg. juices are available
in those 4 1/2 oz cans that would
also be good. He'll get it
all unlabeled.

I've damn near got the
garage complete. Hung the
door Eric. so now it's just
the windows & small door
to put on and some trim to
put on the corners etc. & then
paint. Got about 65 yards of
dirt hauled in the drive and
a new culvert in too. The
kids & I painted almost the
whole house on the 10th.
The main color, that is ^{cocoa} brown.

Dad & Mom were up & dad helped quite a bit to get the roof on the garage and finished the ^{painting} house. So now if the weather holds, and it has been very nice, we'll get that garage painted this week too, I hope & maybe get some white on the house.

Have cleared up most of my bills incurred so far, but am running into a number of small items over and above what my hosp. plan covers. These won't be too bad tho. Under 100. Total here in town, but I'll owe Mayo Clinic about 130. so the ^{life} insurance check I got

will be put to good use
there too. I bought a
pd. for a grave marker.
Little hunk of granite for
\$123.

We were all down to
Maple to Frank Beents place
last weekend. To cut down
a big old maple stump about
30 ft tall with my chain
saw & then blocked it in
about 3 ft. pcs. Some job,
Kids enjoyed the weekend
very much.

Bye for now.

All our love

Clarence & the kids
